DETAILED ACTION

1 This action is responsive to the amendment filed on December 8, 2003.

2 Claims 17-53 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

3 The following is an examiner's statement of reasons for allowance:

The closest prior art of record (US 6,180,118 B1) does not teach or disclose an oxidizing composition and its uses for bleaching, oxidation dyeing or permanent reshaping of keratin fibers wherein the oxidizing composition comprises at least one copolymer based on acrylamido-2-methylpropanesulphonic acid and acrylamide in a combination of at least one polymer of crosslinked 2-acrylamido-2-methylpropanesulphonic acid homopolymer or amphiphilic copolymer comprising at least one sequence of 2-acrylamido-2-methylpropanesulphonic acid units and at least one unit comprising a hydrophobic portion as claimed. Further, the closest prior art of record (US' 118 B1) does not teach or disclose a multi-compartment device for dyeing keratin fibers comprising the oxidizing composition as described above. Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of keratin fibers bleaching, oxidation dyeing or permanent reshaping formulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
